

Speed Dial

Cindy Bernadette

I remember you giving me your number when I met you
I remember you asking me if I could walk you home
I remember you said to me, you wanted to be my girlfriend
It's funny how these things don't last for long
Not funny how I don't know the way to carry on
Tell me how am I supposed to get you off my mind?
When you know I really couldn't even if I tried
But I guess in the meanwhile, I'm taking you off the speed dial
Tell me how am I supposed to get you off my mind?
And every time I hear the song, it used to play when you
called
I used to wanna sing along but now I wanna die
I don't listen to the radio, I'm trying to forget you
It doesn't help because I see you all the time
Your new boyfriend used to be the closest friend of mine
Tell me how am I supposed to get you off my mind?
When you know I really couldn't even if I tried
But I guess in the meanwhile, I'm taking you off the speed dial
Tell me how am I supposed to get you off my mind?
I'm deleting all the memories
'Cause the pictures speak of tragedies
I don't wanna go on living in denial
I'm taking you off the speed dial
I'm taking you off the speed dial
Tell me how am I supposed to get you off my mind?
When you know I really couldn't even if I tried
But I guess in the meanwhile, I'm taking you off the speed dial
Tell me how am I supposed to get you off my
mind?
When you know I really couldn't even if I tried
But I guess in the meanwhile, I'm taking you off the speed dial
Tell me how am I supposed to get you off my mind?
I'm taking you off the speed dial at least for a while
