

Oh My Love

The Drifters

Oh my love, oh my love
You know that I can't leave, I love you so
Yes you know that I will never, never, never, no never let you go

Oh my love, oh my love
You know that I'll always be with you
Yes you know that I'll always always and always be with you

Yea yea yea we made a bargain right from the start
That you would never break my heart
Now that you're leaving, oh if you do,
It will break my heart into yeah yea

Oh my love, oh my love you know that I'll always love you so
And you know that I will never, no never let you go
