

Two Cars

Death Cab for Cutie

Try to scrape it off the thought of skin against skin
Move it from the front to back and start it go again
With the digression and time we will multiply
And I've got more mouths to feed than I could ever Fits in this auto
You go, have a good time
Bring back stories
'Cause I will stay behind So punch the clock two months of up and I am stuck down
Against the floor the heat rises out and leaves town
With the digression and time we will multiply
Till I've got more mouths to feed than I could ever Fits in this auto
You go, have a good time
Bring back stories
'Cause I will stay behind And that's the story of a boy who tried to play it cool
He found it hard to keep it up when you were changing rules
With the digression and time we will multiply
Till I've got more mouths to feed than I could ever Fits in this auto
You go, have a good time
Bring back stories
'Cause I will stay behind
