

# Too Deep

## The Duncan

I saw You  
I saw You  
I saw everything emotion  
I saw why it's left unspoken  
I crawled out  
I crawled out  
I'll do better than the last time  
Got so much more than my mind  
I saw You  
I saw You  
I saw You  
I know why I went to see it  
Still not sure what I believe in  
I walked in  
I walked in  
Is this the time I'll understand  
Will it pass right through my hand  
Till I see You  
Said I'm the one who knows  
Said I'm the one who knows  
Please don't speak of it no more  
Been left out starting to show  
I just stared but not a peep  
You walked by it gets too deep  
Turn me stick in to my soul  
Hasn't changed much getting old  
I saw You  
I saw You  
I saw You
