

# Stardust

Ian Brown

If you're pickin' up a pen  
Imagining a sword  
Did you think I'd never float onto the heights at which you soared  
Pickin' up a pen  
Is like pickin' up a spade  
To plant and sow a seed  
Or diggin' your own gravel I'm made from stardust  
Like a planetary sun  
Same DNA as stardust  
Like an elephant's trunk  
Is a snorkel full of water If you're pickin' up a pen  
Imagining a sword  
Did you think I'd never float onto the heights at which you soared  
Pickin' up a pen  
Is like pickin' up a spade  
To plant and sow a seed  
Or diggin' your own gravel I'm made from stardust  
Like a planetary sun  
Same DNA as stardust  
Like an elephants trunk is a snorkel full of water  
Is a snorkel full of water Who feeds the young 'cause they're starvin'  
In a world that you're marveling in  
Who feeds the young 'cause they're hungry  
In this beautiful world that you live in for free Same DNA as stardust  
Carbon dated to last  
Same DNA as stardust  
From a time that has past I'm made from Stardust  
Same DNA as Stardust
