

Sleep

KMFDM

Don't say you can't
Just do what I would do for you
You watch my back
And I'll be there to cover you Do as I say
And never question what I do
Two feet away
There's trouble closing in on you Close my heavy eyes now
Give me sleep
I traveled trouble oceans
Across the land and sea
Close my heavy eyes now
Give me sleep Don't say you can't
Just do what I would do for you
You watch my back
And I'll be there to cover you Do as I say
And never question what I do
Two feet away
There's trouble closing in on you Close my heavy eyes now
Give me sleep
I traveled trouble oceans
Across the land and sea
Close my heavy eyes now
Give me sleep
