

Cinderella's Eyes

Nicola Roberts

English rose, this is how the story goes,
Been asleep, pricked my finger, fell to deep,
Woke to find, a dead prince charming by my side,
So hey, there's no need to say goodbye,
Will I find, any baddies or goodies?
Will I lie, with any princes or hoodies,
Alibi, you better pucker up or die,
Be mine, say I was with you last night,
No more pretending, there's happy endings,
You gotta make one, make one,
Where did you go? What did you see?
Cinderella's eyes,
What did you do? Where did you sleep?
Underneath the sky,
Did you belong? Are you complete?
Click my heels three times,
My oh my, what'll I do out there?
Cinderella are you happy,
With your fella and your home,
Had to wake up from my nightmare,
Ginger bread man, he tried to seduce me,
Off his head, I'm allergic to dairy,
Better yet, he didn't know I needed more,
A smart cookie who really knows the score,
Little girl, you got to do it for yourself,
In a world, where cards are are so randomly dealt,
No you can't, change the done, it's in the past,
So you, buckle your boots and don't look back,
No more pretending, there's happy endings,

You gotta make one, make one,
Where did you go? What did you see?
Cinderella's eyes,
What did you do? Where did you sleep?
Underneath the sky,
Did you belong? Are you complete?
Click my heels three times,
My oh my, what'll I do out there?
Cinderella are you happy,

With your fella and your home,
Had to wake up from my nightmare,
Choose to learn, choose to love,
Choose to laugh, choose to play,
Choose to care, Choose to ask choose to speak, choose you,
Choose to learn, choose to love,
Choose to laugh, choose to play,
Choose to care, choose to ask choose to speak, choose you,
Where did you go? What did you see?
Cinderella's eyes,
What did you do? Where did you sleep?
Underneath the sky,
Did you belong? Are you complete?
Click my heels three times,
My oh my, what'll I do out there?
Where did you go? What did you see?
Cinderella's eyes,
What did you do? Where did you sleep?
Underneath the sky,
Did you belong? Are you complete?
Click my heels three times,
My oh my, what'll I do out there?
