

# Hurry Home Through the Crowds

## Trembling Blue Stars

If there are dreams that I get lost in  
It doesn't mean anything  
I know exactly what I've found

I don't want you to worry  
Over some flight of fancy  
All I want's the here and now

I miss you through the day  
Never want my own space  
Hurry home through the crowds

I know how precious this is  
What we have  
Noone wants to last

I never mean to do what I do  
I know what's present  
And I know what's past

And when you go quiet I know  
I've strayed from the road

I can stop you feeling insecure  
Can't change the way you are  
But everything's about you now

I know sometimes I don't help  
There's always so much less to tell  
What you think it's all about

I could almost leave too much alone  
There's noone you should be jealous of  
I'd show you but I don't know how

I know how precious this is  
What we have  
Noone wants to last

I never mean to do what I do

I know what's present  
And I know what's past

And when you go quiet I know  
I've strayed from the road

I miss you through the day  
Never want my own space  
Hurry home through the crowds
