

# Monitor

## Siouxsie and the Banshees

Monitor outside  
For the people inside  
A prevention of crime  
A passing of time The come and they go  
It's a passing of time  
They come and they go  
Whilst we sit in our homes Sit back and enjoy  
The real McCoy  
Our new air of authority  
Our sentinel of misery His face was full of intent  
And we shook excitement  
Then the victim stared up  
Looked strangely at the screen  
As if her pain was our fault  
But that's entertainment  
What we crave for inside  
No more second rate movies  
From those people outside
