

Moving On

Taio Cruz

I can't wait till you're gone away
'Cause then I can move on
I can't wait till you're gone away
'Cause then I can move on Then I can say I'm finally over you
I'm, I'm finally over you
I'm, I'm finally over you
I'm, I'm finally over you I can't wait till you're gone away
'Cause then I can move on
Can't wait till you are gone You say that you are no longer in love with me
And uh you can not be the one for me
Told me that this love of ours
Is taking us down different roads
And it's caused us to grow apart and so Girl, don't say to me
That you want to be
Be good friends with me
That's just teasing me Girl, it's best you leave now
Say goodbye to me
'cause you should know, girl, that I can't wait till you're gone away
'Cause then I can move on
I can't wait till you're gone away
'Cause then I can move on Then I can say I'm finally over you
I'm, I'm finally over you
I'm, I'm finally over you
I'm, I'm finally over you I can't wait till you're gone away
'Cause then I can move on
Can't wait till you are gone
Can't wait till you are gone
(Put a break in it) I just need you to leave me, baby
I just need you to leave me, baby
That way I could move on ya feel me
That way I could move on ya feel me I just need you to leave me, baby
I just need you to leave me, baby
That way I could move on ya feel me
That way I could move on ya feel me I just need you to leave me, baby
I just need you to leave me, baby
That way I could move on ya feel me
That way I could move on Then I can say I'm finally over you
I'm, I'm finally over you
I can't wait till you're gone away

'Cause then I can move on
'Cause then I can move on Can't wait till you are gone
Can't wait till you are gone
