

A Lot Like You

Stereos

I've been talkin to to this girl every day like
She's been around quite a bit and it's so tight
She's got a pretty little name but I don't know
Just what it is at the moment, oh no no no
Sorry I ain't had the time to give a call back
'Cause she's been taking up all my time with all that
She's got a funny little way of acting crazy
'Cause when I bring you up, starts acting like she hate me
I know you think it baby,
But I never miss you
I swear I don't remember what it's like to kiss you
When it all comes down to who is over this,
You let me get away
She's a lot like you,
But she doesn't do the things you used to do
She's a lot like you,
But she wouldn't do the things you put me through
I heard a friend saying all this stuff about you
How you moved on to big and better, I don't doubt you
When I don't get her to make you feel like you can trust me
You found nothing good to say about me
I bet he's got a better way of saying sorry

But everybody's just the same and you ignore me
I'm moving on to things that we could never do, girl
It's that I've tried, but it's only for a new girl
She's a lot like you,
But she doesn't do the things you used to do
She's a lot like you,
But she wouldn't do the things you put me through
She's a lot like you,
But she doesn't do the things you used to do
She's a lot like you,
But she wouldn't do the things you put me through
I know I wasn't perfect, baby
But you let them get to us
I tried to give you everything
But then it just was not enough
I'm thinkin that I might just maybe become attached to her

Girl you set me free and I'm leaving
She's not like you,
She doesn't do the things you used to do
No, she's not like you,
I'm missing all the things you put me through
She's not like you,
She doesn't do the things you used to do
No, she's not like you,
I'm missing all the things you put me through
