

# Big Brother

## Frenzal Rhomb

I can't vote even though it's not my fault  
I'd like to see what they believe  
and if I try just stop and wonder why  
those decisions make me sigh  
big brother isn't watching  
big brother's ignoring you  
I know I should but I never really understood  
what these people meant to me  
but I still try to vaguely have some grasp of it  
so I can read between the lies
