My Lost Lenore

Tristania

For thy promise bewailed
by her raveneyes
by her beauty and a scarlet sunrise
May thy river bury her silvertears
A fallen angel... enshrined in moonlit seasLeaving vitality
so serene breeds my darkness
Entreating winterwinds
though I leave... I embrace theeWinternight
conceal thy precious angellore
I secrete my soul
under thy wings of sorrow
Dark I embrace thy eyes
wander lost on life's narrow path
I reveal my heart
to this beauty dressed in dark Grieving raveneyes
falls asleep with the sunrise
Delightful midsummer breeze
though I leave... I await theeGrant me thy last midsummer breeze
May thou ascend from endless sleep
... my desire
Dance me above thy moonli seas
Glance yearningly into the deep
a cold and weary night
