Please

Eisley

I, I, lost, lost all respect, admiration
And trust, trust, I was just, just following my heart
And he tells me he's unfaithful
And now I need for you to tell me it's alright
Please, oh, please don't do this to me, baby
Please, oh, please don't get over me
I fall, fall, you were there, there to expose it
What a smooth plan
I should've seen, seen through your disguise, surprise
You've found a replacement
And he tells me he's faithful
But I know better now
So please just tell me it's alright
Please, oh, please don't do this to me, baby
Please, oh, please don't get over me
I'm sorry, you've got so much
Against you coming into this
I appreciate your patience
I know that you've been hurt too
Oh, we're black and blue
But baby, let's make this work out
I'll always be around
I wanna be with you forever
Please, oh, please don't do this to me, baby
Please, oh, please don't get over me, oh baby
Please, oh, please don't do this to me, baby
Please, oh, please don't get over me
