

# Watching over Me

Trevor Morgan

Hit the light and lock the door  
The devil's coming back for more  
Don't know what he's looking for  
So just hit the light and lock the door  
There's a cold rain coming down  
In the darkness on the edge of town  
I'll be here safe and sound  
While the cold rain's coming down  
Chorus:  
'Cause I've been saved from the man I used to be  
I've been saved like a prisoner set free  
From his chains and I don't need to be afraid  
When the night closes in I'll believe  
That You're watching over me  
Oh, if I die before I wake  
I know the Lord my soul will take  
Lead me at the party gates  
Oh, if I die before I wake  
Chorus:Chorus:
