

# Fly By Night Only (feat. Yaarrohs)

## The Glitch Mob

Advisory - the following lyrics contain explicit language:

Fly by night only  
On my watch babeTake a ride outside with me just for a little while  
Feel the wind brush back the road and clean you of your lies  
There's a tone I tend to touch, a deepened lust from which I fall  
And the racing heart will beat endlessly into the dark  
In darkness ascend  
I take to the night againFly by night only
