Frozen in Time

Chimaira

Suspicion growing
A feeling I cannot control
Communication, communication low
The invasion is necessary, the dangers are secondaryThis was never meant to be
A lifetime of instability
I guess, I was always weak
Someone please, rescue meFrozen in time
Can't control what's inside of me
Frozen in time
I left my soul behindI'm at the end of the line
Trapped in my mind, empty and blind
Frozen in time
Can't control what's insideI see myself dying
And all these paranoid delusions frighten me
Manipulating vitality
An unspeakable evil latches on to agonyAttacking my body
Impurity spreading through me, like a parasite
Desensitized to the world
While the plagues controlling, like a fucking parasiteThe same demons keep haunting
Sending their warning, it's unrelentingFrozen in time
Frozen in timeThis was never meant to be
A lifetime of instability
I guess, I was always weak
October the leaves buried meFrozen in time
Can't control what's inside of me
Frozen in time
I left my soul behindI'm at the end of the line
Trapped in my mind, empty and blind
Frozen in time
Can't control what's inside
