Where I Come From

Passion Pit

Where I come from,
They say things will be well and fun,
Though the world around you is crumbling.
And the truth bleak as a bee.
Stay close believe.
Though things are not what they seem,
I won't let them destroy these dreams.
They're just things.
Silly little things.
They're only things.
I think we'll be alright.
I think we'll be alright.
Where I come from,

You say things will be well and fun.
Though the world around you is crumbling.
And the truth bleak as a bee.
Stay close believe.
Though things are not what they seem,
I won't let them destroy these dreams.
They're just things.
Silly little things.
They're only things.
I think we'll be alright.
I think we'll be alright.
We'll be alright.
I think we'll be alright.
