I Wasn't Over You

98 Degrees

Girl, no matter where I go, I call you after every show
In your voice I hear a funny tone, somebody's holdin' you
Now you see me on TV, I thought you'd be proud of me
Somehow things have changed, oh yeah
I wasn't over you, I was away from you
And now you've left me when skies are gray
I wasn't over you, I was away from you
And now you've blown it all away
When I'm on stage with 98 Degrees, tryin' to make a way for you and me
City to city, you're on my mind, tell me baby, baby, who's got my time?
All I do, I do for you, now look what you've put me through
My heart is hurtin' for you, oh baby
I wasn't over you, I was away from you
And now you've left me when skies are gray
I wasn't over you, I was away from you
And now you've blown it all away
Baby, all I wanna do is be the one that's there for you
And hold you when it seems like times are bad
Girl, this love is just too good for me to let it go
Ohh ohh, oh no
I wasn't over you, I was away from you
And now you've left me when skies are gray
I wasn't over you, I was away from you
And now you've blown it all away
I wasn't over you, I was away from you
