

# Cadillac

## Mest

It's Friday night what's going on tonight?  
I'll see her later on tonight  
But now it's time to roll this somber state is getting old  
Well I never do what I am told, so now we're gonna roll  
And now we're gonna roll  
With the top down seat back rollin' in my Cadillac  
With the top down seat back rollin' in my Cadillac  
We order another round, my girl's nowhere to be found  
I hope she gets here soon before I'm fallin' down  
'Cause now I'm all torn up, I feel like I might blow up  
And then I get word my girl's showin' up, so now I'm gonna roll  
And now I'm gonna roll  
With the top down seat back rollin' in my Cadillac  
With the top down seat back rollin' in my Cadillac  
Rollin' with the top down seat back rollin' in my Cadillac

Self control knowing right from wrong is what I lack  
Top down seat back rollin' in my Cadillac  
Top down seat back with the, top down seat back with the  
Top down seat back, top down seat back  
Top down seat back rollin' in my Cadillac  
Rollin' in my Cadillac top down seat back with the  
Top down seat back, seat back, seat back  
With the top down seat back  
With the top down seat back, top down seat back  
Rollin' with the top down seat back rollin' in my Cadillac  
Self control knowing right from wrong is what I lack  
Top down seat back rollin' in my Cadillac  
Top down seat back rollin' in my Cadillac  
Top down seat back rollin' in my Cadillac
