

# Freedom Of Speech Won't Feed My Children

## Manic Street Preachers

Liberty, sweet liberty  
Charitable respectability  
Then pacifism killed us all  
For all the tourists on the Berlin wall  
So we protest about human rights  
Worship obesity as our birthright  
But freedom of speech won't feed my children  
Just brings heart disease and bootleg clothing  
Just brings heart disease and bootleg clothing  
We love to kiss the Dalai Lama's ass  
Because he is such a holy man  
Free to eat and buy anything  
Free to fuck from Paris to Beijing  
Little boys with dangerous toys  
All bow down to the Beastie Boys  
But freedom of speech won't feed my children  
Just brings heart disease and bootleg clothing  
Just brings heart disease and bootleg clothing  
Royalty, hereditary, unelected and becalmed  
Just like Stalin, just like Stalin  
Human and useless  
Bomb the Chinese Embassy  
The west is free, oh the west is free  
Laugh at the hammer and sickle  
It is antique, oh it is antique  
And see the love in Richard Gere's eyes  
JS Pemberton saved our lives  
But freedom of speech won't feed my children  
Just brings heart disease and bootleg clothing  
Just brings heart disease and bootleg clothing  
Just brings heart disease and bootleg clothing  
Just brings heart disease and bootleg clothing
