

# Pump the Brakes

## Refused

Genocide on genocide - destroyed knowledge crushed pride  
Lost culture to civilization - reduced abused beyond dignity  
Contemplation exploitation - ring the bell of information  
Blocked the truth convincing, controlling - held us down unthinking, unknowing  
Oppressed so many for so long - we've ignored the facts, and moved along  
We gotta pump the brakes  
Wasting resources, face some facts and detect the causes - cause our progression equals  
Destruction, people getting killed by government corruption  
Cause making most of the land, that's the plan, you gotta understand  
That 50 years down the line, there won't be no time, the time is now.  
Drained so much for so long - we've ignored the costs and moved along  
Time to pump the brakes  
Gotta pump the brakes, pump pump the brakes...
