Partytime

45 Grave

Oh, she never had a chance
She was only five years old
Pity the poor little darling now
Oh, she never had a chanceDeath come quick for a girl
Victim of a homicide
Cut and beaten, brutally raped
The five year old, she didn't escapeHer mom and friends did it her in
Cigarette burns on her arms
From her mom and her friend
He had a whip to hit her againDo you wanna party
Well it's partytime
We gotta party
It's partytimeOh, she never had a chance
She was only five years old
She never was aware
She never had a chanceGrand mother was sent to jail
Except Veronica, her older sister
She wasn't loved for a dime
Where ever she is with partytimeDo you wanna party, well it's partytime
We gotta party, it's partytime
Do you wanna party, well it's partytime
We gotta party, it's partytimeIt's partytime
It's partytime
It's partytime
It's partytime
