

# Time Will Only Tell

## Fanmail

I feel my time is coming and I'm not so sure  
If I've already been here too late  
The time has passed by  
And I'm not so sure what I should fear Disappointment takes it toll  
When you're getting older  
And everyone's still younger I feel my time is coming and not so sure  
If I've already been here too late  
The time has passed by  
And I'm not so sure what I should fear Procrastination takes its toll  
Grabs you by the throat  
And never lets you go
