

Gold

Carolyn Malachi

gold

i still you wear you like this gold peice
that my daddy gave to me but your not like him at all

no.....

gold.....Gold you don't deserve my diamond

It don't take a genuis to figure out

My love not what you heart is about

To let in

And I've fallen errie of not getting tired of you only wanting the challenge
but never for one more minuteFacing the mirror, to full of beauty for your ugly words

I couldn't be clearer

too full of diamonds for anymore hurt

My face in the mirror, to full of beauty for your ugly words

Ever been clearer too full of diamonds for anymore

Any's tournished gold

I don't have anything to wear you for anything anymore

my daddy told me I'm a diamond there for I don't need you to make me shine....

gold, yeah that's what I get for buying damaged goods

I heart cergrain when I let you in

real love is sure expensive

oh...

I don't have to wait for this song to play out on the radio for me to remember that I was never happy with you

Lets just be friendsFacing the mirror, too full of beauty for your empty words

I've never been clearer too full of diamonds for anymore hurt

My face in the mirror to full of beauty for your ugly words

Never been clearer too full of diamonds for anymore

Anymore tarnished goldgold.....
