Verse 1:Come down little sun

To shout and respond,

To cover a sum

Sleep through the day

A day that is lost,

A day that was sucked

And no one can see

Seize everythingThe end that you flee

One I conscieved

Thick little foe

Thick little seed

See where you go

Nothing unknown

I'm your wright

UnknownChorus:I just keep you out of it

Looking for tomorrow

In a way, any day

Anywhere appealsI just keep you out of it

Looking for tomorrow

In a way, any day

Anytime appeals Verse 2: Stories to tell

Words we can sell

Terrorize the town

But don't make a sound

-(untranscribable)

So then we can see

-(untranscribable)

-(untranscribable)Chorus:I just keep you out of it

Looking for tomorrow

In a way, any day

Anywhere appeals I just keep you out of it

Looking for tomorrow

In a way, any day

Anytime appeals
