

Cold Game

Maverick Sabre

seems like everybodys carrying
now money is the motivation
stone cold no reflection
what am i supposed to be but this
on the bus oh dark facing
never smile always hide emotion cause even my bestfriends could be the next men that change
darlin'

darlin' its a cold game
and it was we were living in
darlin' its a cold game
got away so i could change
darlin' its a cold game
i dont want to live this way
but sometimes its like theres no other way my knuckles bleeding once again

but i had to hold my place
no respect no intention
i didnt mean to cause you pain
it all happened so suddenly
a paranoia saved my back again
told you id be alright though here to stand another day darlin'

darlin' its a cold game
and it was we were living in
darlin' its a cold game
got away so i could change
darlin' its a cold game
i dont want to live this way
but sometimes its like theres no other way
