All Day Long

Bohagon

Come here girl, I got a bottle of wine
We can pass it around 'til we're feelin' fine
And crazy, mmm hmm
Been a long day, let your hair fall down
We can dance for a while or lay around
And be lazy, mmm hmm
Or we can love all night, yeah, baby
Sure feels good when you take me in your arms
Oh and then we start
To kiss like first time lovers
Tangled up in the covers
Let's get it on
Love me all night, make me miss you all day long
Give me a look with your bedroom eyes
Gonna lock it away up in my mind
For a day dream, mmm hmm
Come on girl, come off with that sugar
Take my hand, baby, now would ya
Lay me down, mmm
Or we can love all night, yeah, baby
Sure feels good when you take me in your arms
Oh and then we start
To kiss like first time lovers
Tangled up in the covers
Let's get it on
Love me all night, make me miss you all day long
Tomorrow I'll be watchin' that clock on the wall
'Til we pick back up right where we left off
Love all night, yeah, baby
Sure feels good when you take me in your arms
Oh and then we start
Kiss like first time lovers
Tangled up in the covers
Let's get it on
Love me all night, make me miss you all day long
All day long, baby
(All day long)
All day long
(All day long)

(All day long)
(All day long)
