

# Little Man

## Little Dragon

You grew high, taller than the middle class  
Boy, cash running in your pockets  
You skate high, gold on your finger tips  
They try to make people nervous Something missing in your smile  
Something missing in your soul  
Are you suffering the blues?  
Tell me why, tell me when, tell me why when Green dollar bills slipped your hand, little man  
Anything you wanna come instantly.  
Boy, when the plan slipped your hand, little man  
Anything you wanna come instantly. Castle, house, cars and the ladies  
Blues, no doubt, got you feeling empty  
Your bank's packed to edge and still you're sad Something missing in your smile  
Something missing in your soul  
Are you suffering the blues?  
Tell me why, tell me when, tell me why when Green dollar bills slipped your hand, little man  
Anything you wanna come instantly.  
Boy, when the plan slipped your hand, little man  
Anything you wanna come instantly.
