

# The Crows Are Coming For Us

## From First to Last

How does it feel to be ashamed of who you love?  
Oh, I know, you wore me out so proudly  
Hidden in the glitter is the real thing, real  
Always knew  
What you were  
Always knew  
You walk on water, you sing a lovely tune  
You walk on water, you sing a lovely tune  
You walk on water, you sing a lovely tune  
You walk on water, you sing, sing  
Always knew  
What you were  
Always knew  
The crows are coming for us  
Let them live, let them live  
The crows are coming for us  
Let them live, let them live  
The crows are coming for us  
Let them live, let them live  
The crows are coming for us  
Let them live, let them live  
The crows are coming for us  
Let them live, let them live  
The crows are hungry for us  
Let them live, let them live  
The crows are hungry for us  
Let them live, let them live  
The crows are hungry for us  
Let them live, let them live  
Always knew  
What you were  
Always knew  
What you were  
(The crows are coming for us)  
Always knew  
(The crows are hungry for us)  
What you were  
(The crows are coming for us)
