Another Generation

Fishbone

Grab your arms and choose a side
There's a battle to be won
A psychic war's upon us, and the walls are closing in
And it's time to change the time
Brave are those who do decide
[Incomprehensible]Unless the calls get misdirected
Another trend to follow, another word to linger on
They may not even know the reasons why
You think without a vision, and then they try to call it ours
And it's causin' me to culture shock
The fools all hide behind the fashion
The new age rebels have no cause
But little do they realize, that a true change can come from within
But that's too simple to be true, my hair looks better now in blue
Is it true profession, or just another way to stay along?
Sometimes I even ask myself
Another generation, another forward state of mind
It's somewhere deep within our consciousness
Is it the new beginning, for those who need a second chance
Maybe then we'll find out why we did
Another generation, another forward state of mind
It's somewhere deep within our consciousness
Problems of the aged, problems of the kids
Problems are the mistakes of the past we've made
It's time to look forward to a third generation
Another generation, another forward state of mind
It's somewhere deep within our consciousness
Another generation
Another generation
Another generation
...
