

# Faking It (feat. Kehlani & Lil Yachty)

Calvin Harris

Pray to god  
But I'm feeling like he's going deaf  
Now when I lean on you and I got nothing left  
Hey, I've been wanting to call ya  
Tell you that I'm sorry  
Same old fucking story everybody sing And I say I'm okay  
But I guess I'm a liar  
You say you're okay  
But I saw that you liked it  
2 AM and faded  
I know that's when you like it  
Know that's when you miss me  
Know that's when you crying  
Why you, why you, why you checking if you're over it?  
Why you, why you say "let go" if you're still holding it?  
Just a little bit better at faking it than me, baby  
Just a little bit better at faking it than me, baby  
Why you, why you, why you checking if you're over it?  
Why you, why you say "let go" if you're still holding it?  
Just a little bit better at faking it than me, baby  
Just a little bit better at faking it than me, baby Nowdays, I'm just a bitch to everybody else  
(Fuck you and you)  
I don't need no shoulders  
I'm good crying by myself  
(Fuck you, too)  
Ay, Moving on to chokers  
You know I still adore ya  
An unrequited love is just a lover's hell  
And I say I'm okay  
But I guess I'm a liar  
You say you're okay  
But I saw that you liked it  
2 a.m. and faded  
I know that's when you like it  
Know that's when you miss me  
Know that's when you crying Why you, why you, why you checking if you're over it?  
Why you, why you say "let go" if you're still holding it?  
Just a little bit better at faking it than me, baby  
Just a little bit better at faking it than me, baby

Why you, why you, why you checking if you're over it?  
Why you, why you say "let go" if you're still holding it?  
Just a little bit better at faking it than me, baby  
Just a little bit better at faking it than me, baby (Lil Boat)  
(Lil Boat, Lil Boat, Lil Boat, Lil Boat)I'm not gonna act like I don't love ya baby  
Cause deep in my mind, girl, you know I do (true)  
Tried to search all through the world not well  
But I can't find a girl that lives close like you (no!)  
I done made millions of dollars  
But I'm still alone until I come home back to you (yah!)  
I remember all of the times  
We were parked by your house  
And laughed out on your avenue  
Whoa, you can't front  
You're a stone cold diva (yeah!)  
I had to get counseling from my moms  
She's a heartbreak teacher (oh, yah!)  
Remember that time  
I put those pepperonis on your face  
Made you a creature  
Now I think about you  
Every single time I eat pizza, oohWhy you, why you, why you checking if you're over it?  
Why you, why you say "let go" if you're still holding it?  
Just a little bit better at faking it than me, baby  
Just a little bit better at faking it than me, baby  
Why you, why you, why you checking if you're over it?  
Why you, why you say "let go" if you're still holding it?  
Just a little bit better at faking it than me, baby  
Just a little bit better at faking it than me, babyWhy you holding me?  
Why you holding me?  
Oh, she killed that shit  
She was killing it  
That was hard, bruh  
I didn't know she could get that high  
But she killed that  
Go Lani, go Lani
