The Next Miss Wrong

Tinsley Ellis

4 measure intro

My friends say I'm foolish
to fool around with you
Now if they all got their wish
I'd be over you

You walked out on me woman
I didn't even put up a fight
I stood by his Cadillac
in the Delta night

I don't need you back
This hurt'ns gotta end
Till the next miss wrong
comes along again

2 measure keys solo

I can't believe you fell for
such a phony rush
He'll take you to the coast in style
Send ya home on a Greyhound bus

I don't need you back
This hurt'ns gotta end
Till the next miss wrong
comes along again

72 measure guitar/keyboard/guitar solo

You sold yourself so cheap babe
you laid around a lot
No wonder my friends tell me
your love is cold and blind

I don't need you back
This hurt'ns gotta end
Till the next miss wrong

comes along again

next miss wrong
comes along again

next miss wrong
comes along again
