Salt Lake City

Dwarves

There isn't anything I wouldn't do for you except the one thing that you want me to
We went across the mighty Rio Grande and saw Disneyland and the sea you and me
But there's one thing I'll never do not even for you
I'm not going to Salt Lake City
There isn't anything I wouldn't do for you except to walk among the Osmond crew
I know you're planning for a latter day and you can't betray what you know in Provo
But there's one less town on the globe and if you must go there you're going alone
I'm not going to Salt Lake City even if they tell me I can stay
Even if they resurrect my brain I don't wanna go there I don't wanna go insane
I'm not pure and I'm not pretty and I'm not going to Salt Lake City
I'm not living in Hello Kitty and I'm not going to Salt Lake City
