

# Maybe Someday

## Flick

Don't forget to smile over me  
I know it's been a while since I  
    let you breathe  
Maybe someday, I'll find that one thing  
    that makes me feel like  
        I want to feel  
maybe someday, I'll find that one thing  
    that makes me feel like  
        I want to feel  
        Wish that I could call  
standing with my face against the wall  
    I believe but it's not sinking in  
    I believe but how could you forget  
Maybe someday, I'll find that one thing  
    that makes me feel like  
        I want to feel  
maybe someday, I'll find that one thing  
    that makes me feel like  
        I want to feel  
        How could you forget it  
Maybe someday, I'll find that one thing  
    that makes me feel like  
        I want to feel  
maybe someday, I'll find that one thing  
    that makes me feel like  
        I want to feel  
        What I get from you is  
            something  
            nobody gives
