Rest Easy

Andrew Peterson

You are not alone
I will always be with you
Even to the endYou dont have to work so hard
You can rest easy
You dont have to prove yourself
Youre already mine
You dont have to hide your heart
I already love you
I hold it in mine
So you can rest easyDo not be afraid
Nothing, nothing in the world
Can come between us nowYou dont have to work so hard
You can rest easy
You dont have to prove yourself
Youre already mine
You dont have to hide your heart
I already love you
I hold it in mine
So you can rest easyYou work so hard to wear yourself down
And youre running like a rodeo clown
Youre smiling like youre scared to death
Youre out of faith and all out of breath
Youre so afraid youve got nowhere left to goWell, you are not alone
I will always be with youYou dont have to work so hard
You can rest easy
You dont have to prove yourself
Youre already mine
You dont have to hide your heart
I already love you
I hold it in mine
You can rest easy
