

# Rest Easy

## Andrew Peterson

You are not alone  
I will always be with you  
Even to the end  
You dont have to work so hard  
You can rest easy  
You dont have to prove yourself  
Youre already mine  
You dont have to hide your heart  
I already love you  
I hold it in mine  
So you can rest easy  
Do not be afraid  
Nothing, nothing in the world  
Can come between us now  
You dont have to work so hard  
You can rest easy  
You dont have to prove yourself  
Youre already mine  
You dont have to hide your heart  
I already love you  
I hold it in mine  
So you can rest easy  
You work so hard to wear yourself down  
And youre running like a rodeo clown  
Youre smiling like youre scared to death  
Youre out of faith and all out of breath  
Youre so afraid youve got nowhere left to go  
Well, you are not alone  
I will always be with you  
You dont have to work so hard  
You can rest easy  
You dont have to prove yourself  
Youre already mine  
You dont have to hide your heart  
I already love you  
I hold it in mine  
You can rest easy
