

# Lately

[Matt Cardle](#)

Too long staring at the same page  
Through love and through rage  
I wanna run, I wanna stay the same  
Get loose, get lucky, get laid  
We have dreams, but they fade  
I wanna run, I wanna stay the same  
Lately, it won't come together, it won't come together  
But my baby, it's gonna get better, it's gonna get better  
Too long putting on a brave face,  
But inside we can't change  
I wanna run, I wanna stay the same  
Stand down, know your place  
A bitter pill I won't taste  
I wanna run, I wanna stay the same  
Lately, it won't come together, it won't come together  
But my baby, it's gonna get better, it's gonna get better
