It's a Good Thing

Jaron And The Long Road To Love

Made a promise, yeah, I swore to myself
I'd never give my heart away, no, no, to anyone else
'Cause I'd been burned and I'd been lied to
I couldn't find love if I tried toSaid I'd live alone forever
Was the safest way that I knew
And there you were as if you had been
Listening inside my headYeah, everything had fallen apart
You came into the picture like a work of art
I feel your arms around me and it sets me free
It's a good thingI used to wake up at the first drop of rain
Now I sleep beside you through a hurricane
Like a window that was painted shut
My heart was closed and had enoughAnd though I tried to hide away
You knocked until I opened up
And there you were as if you had been
Waiting for me all my lifeYeah, everything had fallen apart
You came into the picture like a work of art
I feel your arms around me and it sets me free
It's a good thing, yeah, it's a good thingAnd there you were as if you had been
Listening inside my headYeah, everything had fallen apart
Then you came into the picture like a work of art
I feel your arms around me and it sets me free
It's a good thing, it's a good thingYeah, everything had fallen apart
You came into the picture like a work of art
I feel your arms around me and it sets me free
It's a good thingEverything had fallen apart
Yeah, it's a good thing
Everything had fallen apart
Yeah, it's a good thing
