

# We Trying To Stay Alive

## Wyclef Jean

We got the refugees all-stars rubba dubbin' in the club  
Wyclef Jean, John Forte, Prizewell  
Nah mean the streets are gettin' a little crazy Looka looka looka looka looka  
Looka looka looka here looka Shorty got back  
Should I ask her for a dance, hold on there's too many in a wolf pack  
And besides Dirtycash talkin' to her  
Buyin' her fake furs and takin' her to the fever Quite as his kept that ain't even his Benz  
She spends his Franklins at the malls with her friends  
Material girl, livin' in a material world  
But it's alright 'cause it's Saturday Night  
So mista funkmaster pump the Bee Gees And all you college students bring your Ouijas'  
Check the spellin', R E F U G E E get the CD from Sam Goody  
You ain't even close wit the rhymes that you wrote  
Don't be mad 'cause you broke, let me clear my throat  
John Forte grab the mic, roots sway it this way I more than just a rhymers you still a small timer  
Hopin' that the game treat that ass a little kinda  
Every step tango'd, your beat don't concern me  
I'm eatin' mangoes in Trinidad wit attorneys  
My crews slang flow worldwide like a current Wit da every spot where nobody get insurance  
Brotha do the math you ain't half near exotic  
My man's claim true, you forget about it  
Pope hoe just a new stance like my influence  
Well recognize you a lie tryin' do it Got juice told your lady oops, we nuts baby  
Smooth and charismatic automatic, you gonna save me  
God bless the day that my sons survive  
We strive to teach the youth baby and stay alive Refugee camp nuts baby, John Forte, yo watch your lady  
Yo watch your lady, special, I'll rhyme Dirtycash  
Yo if you got more than  
Dollar in your pocket right now put your hands up Yo yo, you can tell by the way I roll shorty that I'm a ladies  
man  
A business man, condos down the shore, multi million pension plans  
But it ain't in my plan to make move without the fam  
I keep it intact, you Clef do the track John play da mack while I pay the tax  
Business as usual, watchin' suspects, steal my assets  
Get cut with Gillettes, we built this concept, connect like Nynex  
Drinks at the bar, my American Express Yo I cook up, cook up, the cop a pull up pull up  
Then I cuff up, cuff up, you who's callin' bluff  
Now you shook up, shook up 'cause you lock up, lock up  
When I love up, love up, you who's callin' bluff Hey yo John is chillin', Dirtycash chillin'

What more can I say, we livin'  
That's what we got, we got it good  
And since you understood, we be Yeah, live at the carnival, 97 till infinite, refugee all-stars  
Can't stop the shining, can't stop the shining  
Can't stop the shining, can't stop the shining  
You wanna stop the shining, you wanna stop the shining  
You wanna stop the shining, you wanna stop the shining  
Can't stop the shining, can't stop the shining
