Black Light

Ignite

another day...time for abuse
have homosapiens...
outgrown their use
a sad history...of the things we did
i'm doing my best...in this place i live
i'm doing my best...in this place i live
you better look inside
be a man dont run and hide
be responsible for what you've done
when it's your turn
don't you run
no one is wise enough...
to be another master
each man is good as the next
but she's a damn sight better
i'm doing my best...in these times i give
i'm doing my best!
you better look inside
be a man dont run and hide
be responsible for what you've done
when it's your turn
don't you run!
i see the world in a black light
hunting poachers
the power of money and all its might
developers
raping oceans in the middle of the night
driftnetters
shoot any wolf or bear on sight
nail my pelican to a light post
fisherman
driftnet lines are razor ropes
kills everything
pirate whalers off our coast
iceland
well wel'll rock your world
wel'll sink your boats
norway japan
i see the world in a...

i see the world in a...
i see the world in a...
i see the world in a...
black light
