

# Petrified (Los Angeles Remix)

## Fort Minor

Y'all are not, not, not ready ho, not, not ready ho  
We're gonna drop it steady so do it like that  
Like that, like that, like that, like that, like that, like that Now why is everybody so petrified?  
What? Petrified? What? Step aside and just  
Drop that, come on, drop that, come on  
Drop that, come on, drop that, come on Now why is everybody so petrified?  
What? Petrified? What? Step aside and just  
Drop that, come on, drop that, come on  
Drop that, come on, drop that, come on Yeah, how you doin' yall? My name is Mike  
Im foolin' with the new, Im doin' it all like  
I like what I do, I do what I like  
I could quit and get it back like Im ridin' a bike Like stop, bring it back, bring it back  
We got that balance keepin' us on track  
That ya get what ya move and quit with no slow  
You stare like you dont care but you do it though I know you really must be so lonely  
Puffed up, lookin' tough but so phony  
You and your boys, you dont know me  
You really wanna hold me, show me homie Let's get it over with for good  
I got a friction addiction, I wish you would  
Machine Shop rockin when we step inside  
And we got everybody so petrified Now why is everybody so petrified?  
What? Petrified? What? Step aside and just  
Drop that, come on, drop that, come on  
Drop that, come on, drop that, come on Listen, you are not ready  
Like children in a building you cant stand steady  
It must be the beat so heavy  
'Coz I panic, attacks like a crack in the levy Give you that rob or plant, dancin' days are back  
Feelin' all in the track and in fact for those knowin' the name  
I'm back with some brand new attack  
Who can do it like that? You really must be so lonely  
Puffed up, lookin' tough but so phony  
You and your boys, you dont know me  
You really wanna hold me, show me homie Tough talk doesn't mean a thing  
You know for yourself, you know when were up in a scene  
It's Machine Shop rockin when we step inside  
And we got everybody so petrified Now why is everybody so petrified?  
What? Petrified? What? Step aside and just  
Drop that, come on, drop that, come on  
Drop that, come on, drop that, come on Now why is everybody so petrified?

What? Petrified? What? Step aside and just  
Drop that, come on, drop that, come on  
Drop that, come on, drop that, come onY'all are not, not, not ready ho, not, not ready ho  
We're gonna drop it steady so do it like that  
Like that, like that, like that, like that, like that, like thatY'all are not, not, not ready ho, not, not ready ho  
We're gonna drop it steady so do it like that  
Like that, like that, like that, like that, like that, like, get upNow why is everybody so petrified?  
What? Petrified? What? Step aside and just  
Drop that, come on, drop that, come on  
Drop that, come on, drop that, come onNow why is everybody so petrified?  
What? Petrified? What? Step aside and just  
Drop that, come on, drop that, come on  
Drop that, come on, drop that, come onLike stop, bring it back, bring it back  
We got that balance keepin' us on track  
Like stop, bring it back, bring it back  
We got that balance keepin' us on trackLike stop, bring it back, bring it back  
We got that balance keepin' us on track  
Like stop, bring it back, bring it back  
We got that balance keepin' us on trackLike stop, stop, stop  
Machine Shop, shop, shop
