

Strained

Katatonia

End

Sometimes a start for others

End

I don't know the word 'Beginning' Sometimes fear is power

Like when I lost control

This time, it has to come to an end I'd like to try to live my life again

I'd like to see where I was going wrong

I'd like to try to live my life again

I'd like to see where I was going wrong End

Sometimes a start for others

End

I don't know the word 'Beginning' Sometimes fear is power

Like when I lost control

This time, it has to come to an end I'd like to try to live my life again

I'd like to see where I was going wrong

I'd like to try to live my life again

I'd like to see where I was going wrong I'd like to try to live my life again

I'd like to see where I was going wrong

I'd like to try to live my life again

I'd like to see where I was going wrong I'd like to try to live my life again

I'd like to see where I was going wrong

I'd like to try to live my life again

I'd like to see where I was going wrong
