Gramercy

Milo Greene

Ha ha ha ha ha ha ha)On the floor we watched, colors go by
Canvas changing colors, we breathe and we're highIn the soft of your eardrum
Down the shade, close out the sun
Till we're allTime, time for me
Only gets worse when you leaveThis love, is not mine
You took it right from me
This love, this love
You took it right from meThis love, is not mine
You took it right from me
This love, this love
You took it right from meIn moonlights we're nothing at all
Bodies will rise, we're ready to fallTime, time for me
Only gets worse when you leaveThis love, is not mine
You took it right from me
This love, this love
You took it right from meThis love, is not mine
You took it right from me
This love, this love
You took it right from meTel me you won't look at me like you did
And that you'll take the floor if I take the bed
I will never crawl through your window again
Forget me, forget me nowThis love, is not mine
You took it right from me
This love, this love
You took it right from meThis love, is not mine
You took it right from me
This love, this love
You took it right from me
