I got empty point to make
It's about a faith
An empty point of view
It's stinky through and throughSo you think you've got some problems?
So you think you've got it bad?Good boy
Gone bad
So sorry
So sadMakes you
Wonder if you can
It takes you
Puts you in a canOne thing I'm gonna do
Something you don't want to viewThis is my world
This is mine
This is my world
This is mineI got a fresh opinion now
I can tell you how
I think it's best just to take it
And go underOh take some, swallow you can't miss
Let's you spend some time in blissOh, come on down
Oh, come on down
Oh, welcomeThis is my world
This is mine
This is my world
This is all mine
Oh, it's all mine
Oh, it's all mineThis is my world
This is mine
This is my world
This is mine
This is all mine
This is all mine
