

# Blues Is a Woman

## T-Bone Walker

Blues is a woman, that woman I call my own  
Blues is a woman, that woman I call my own  
I'm happy when she's near me  
Sad when she leaves me all alone  
Blues is a feeling that pains your very heart  
Blues is a feeling that pains your very heart  
Don't feel it when she's with you  
But how it aches when you're apart  
Blues is song I sing both night and day  
Blues is song I sing both night and day  
When you've got a woman  
It makes you sing the blues that way
