

# 'Bout It

## Yung Joc

Shh [incomprehensible]  
Yo, yall know what it is  
Show me youre on top man  
Block Entertainment  
Bad Boy South  
Hey Gwamain!  
What up?  
Inhale for this one boy  
Lets goYou think you know me but you have no idea  
Act like youre bout it, well let me put this in your ear  
If you really bout it [incomprehensible] like you dont care  
If you bout it I dont doubt it  
Show me that youre sho nuff bout it, bout it  
(Try something different here yall, ey ey)Get your mind on top cause the hustle dont stop  
If the girl dont chew then my name aint Joc  
The money dont flip then the block aint hot  
If she dont scream your name then your game just shotI got a couple reasons you can call me the boss  
And I drop a couple stacks and watch your head get lost  
The Joc a real catch shorty better believe that  
If you aint a ride or die bring them car keys backTake your foot off the brake baby goon ride out  
If them sucka wanna hate put em in timeout  
I get that cake and youll soon find out  
If you ever cross me youll get crossed outI seen it before aint runnin no more  
Its gonna catch up with me baby dont stop  
Get to the floor, what you waitin for?  
Cause we could ride the beat straight to the topWaitin too long and now its my time  
To show em all that its not a game  
Cause I dont care what Im looking like  
I just gotta show you that Im not going nowhereYou think you know me but you have no idea  
Act like youre bout it, well let me put this in your ear  
If you really bout it [incomprehensible] like you dont care  
If you bout it I dont doubt it  
Show me that youre sho nuff bout it, bout itIma get rich or Ima die tryin  
I aint 50 Cent but respect my mind  
Respect my gangsta, respect my shine  
Put your click in chick if you step outta lineAint Kanye but I been through the wire  
Couple more album before I retire  
Most of these rappers aint nuttin but liars  
Hollered by the killers when they sang in the choirStraight from the bottom and Im trying to get higher

Too many strikes, got too many priors  
Messing with us like playing with fire

Get your wicks split time to meet your messiah I seen it before aint runnin no more  
Its gonna catch up with me baby dont stop  
Get to the floor, what you waitin for?

Cause we could ride the beat straight to the top Waitin too long and now its my time  
To show em all that its not a game  
Cause I dont care what Im looking like

I just gotta show you that Im not going nowhere You think you know me but you have no idea  
Act like youre bout it, well let me put this in your ear  
If you really bout it [incomprehensible] like you dont care  
If you bout it I dont doubt it

Show me that youre sho nuff bout it, bout it Now I been walking up this road trying to find which way to go  
Crying upon my face sometimes it seems like I dont know  
Now I got a chance to touch where things beyond my reach  
And the answers right in front of me

Yeah yeah yeah, yes it is, yeah You think you know me but you have no idea  
Act like youre bout it, well let me put this in your ear  
If you really bout it [incomprehensible] like you dont care  
If you bout it I dont doubt it

Show me that youre sho nuff bout it, bout it You think you know me but you have no idea  
Act like youre bout it, well let me put this in your ear  
If you really bout it [incomprehensible] like you dont care  
If you bout it I dont doubt it  
Show me that youre sho nuff bout it, bout it
