

Find A Way

SafetySuit

Hold on, what's the rush, what's the rush we're not done are we
Cause I don't need to change this atmosphere we've made if
You can stay one more hour, can you stay one more hour You know I'm gonna find a way to let you have your
way with me
You know I'm gonna find a time to catch your hand and make you stay Hold on, I'll be here when it's all done
you know
Cause what's the point in chasing if I can't enjoy your face and
We can't be wrong tonight, can we be wrong tonight You know I'm gonna find a way to let you have your way
with me
You know I'm gonna find a time to catch your hand and make you stay
I don't care what clothes you wear, it's time to love and I don't care
You know I'm gonna find a way to let you have your way with me And if I was running, you'd be the one who I
would be running to
And if I was crying, you would be lining the cloud that would pull me through
And if I was scared, then I would be glad to tell you and walk away
But I am not lying, I am just trying to find my way in to you You know I'm gonna find a way to let you have
your way with me
You know I'm gonna find a time to catch your hand and make you stay
I don't care what clothes you wear, it's time to love and I don't care
You know I'm gonna find a way to let you have your way with me If I was running
If I was crying
If I was scared
You know I'm gonna find a way to let you have your way with me
