Sweet Dreams

Lloyd

Go to sleep, go to sleep
Go to sleep, go to sleep
If you tired
It's alright, go to sleep
Go to sleep, go to sleep
Go to sleep, go to sleep
If you tired
It's alright, go to sleep
Hush, hush baby, don't cry darling
Daddy's here to heal your heart and
It's so crazy, 'cause once I'm started
It's hard to turn me off
Shawty, it's the way your lookin' at me lately
Like your patiently waiting, baby
Let's me know that he ain't takin'
His turn now to break you off
Got the fly, fly, I got that work, work
Up in the bedroom, until them birds chirp
We grippin' off shirts, we taking off skirts
There's something I wanna tell you
I will never fail you, no
Baby I can give you what you want
There's nothing you can bring, promise I'm no tease
Your too damn fine to be alone
It's time to go to sleep and have sweet dreams
Girl I ain't trying say just what you like
Got a couple of tricks hidden up my sleeve
Baby won't you come and stay the night
It's time to go to sleep and have sweet dreams
Oh, baby it's past your bedtime
Let me tuck you in, I'll make you feel good
I heard you been having some nightmares
I'm here to take care of that problem for you
I'll be you dream catcher babe
Help you take your mind off that stress he gave
Take you from your bed to your dresser babe
Shawty I'll stay with ya, yes I will
Got the fly, fly, I got that work, work
Up in the bedroom, until them birds chirp

We grippin' off shirts, we taking off skirts
There's something I wanna tell you
I will never fail you, no
Baby I can give you what you want

There's nothing you can bring, promise I'm no tease
Your too damn fine to be alone
It's time to go to sleep and have sweet dreams
Girl I ain't trying say just what you like
Got a couple of tricks hidden up my sleeve
Baby won't you come and stay the night
It's time to go to sleep
Well she said she was attracted
To my fresh white kicks and the dickie suit
Seen me in the trap, heard I rap and I'm gettin' loot
Damn shawty cute Miss ma'am could you distribute
The time my way and get that name to boot
'Cause we don't know how to act when we be 'bout that action
And Miss Cris' got me tryin' to push your back in
Untill we both faint, sit and think but how 'bout relaxin'
It is to have the heat to guranteed satisfaction
Got the fly, fly, I got that work, work
Up in the bedroom, until them birds chirp
We grippin' off shirts, we taking off skirts
There's something I wanna tell you
I will never fail you, no
Baby I can give you what you want
There's nothing you can bring, promise I'm no tease
Your too damn fine to be alone
It's time to go to sleep and have sweet dreams
Girl I ain't trying say just what you like
Got a couple of tricks hidden up my sleeve
Baby won't you come and stay the night
It's time to go to sleep and have sweet dreams
Baby I can give you what you want
There's nothing you can bring, promise I'm no tease
Your too damn fine to be alone
It's time to go to sleep and have sweet dreams
Girl I ain't trying say just what you like
Got a couple of tricks hidden up my sleeve
Baby won't you come and stay the night
It's time to go to sleep and have sweet dreams
Said shorty I'll give you what you want
I know what you need
Nothing you'll regret, promise I'm no tease

Put you legs [Incomprehensible]
[Incomprehensible] with the birds and the bees
Get you walkin' 'round with that gangsta lean
