

A Little More Love

Lisa Stansfield

Give me more love
Give me more time I can't understand it, maybe you've found someone new
Tell me what did I do wrong, what did I do?
Lookin' in your eyes now I don't see the love we had
I don't see compassion, I don't see anything Give me just a little more love
Some more to tide me over
Give me just a little passion
Give me just a little more love
And a little more time I don't see the reason why you should be so unfair
But I have seen it comin', seen it hangin' in the air
Baby when you hold me you don't touch me like you did
But still I want you by my side, baby I'll do anything Give me just a little more love
Some more to tide me over
Give me just a little passion
Give me just a little more love
And a little more time
Give me some more lovin' Give me just a little more love
Some more to tide me over
Give me just a little passion
Give me just a little more love
And a little more time I can see you're slippin' away from me
But I still feel the magic sometimes when we touch
You and me, ooh it has to be
'Cause baby without you I don't think that I can carry on Give me just a little more love
Some more to tide me over
Give me just a little passion
Give me just a little more love
And a little more time (I'll do anything)
Give me just a little more love
(Anything)
Give me just a little passion
Give me just a little more love
And a little more time
And a little more time
Tell me what did I do? Give me just a little more love
(More love)
Give me just a little passion
(You've got to give me love, baby)
Give me just a little more love

More love and more love and time
Give me more
